# SUNNY VALLEY
N E T W O R K S

Sensei is **EMPOWERING** your OPNsense®

with Next Generation Firewall Features

FEATURES

(See back of the brochure for a comparison of features offered in Free & Premium Editions)

Application Visibility & Control

Block or control unauthorized or misbehaving applications regardless of port numbers.

Rich application database consists of signatures for thousands of applications.

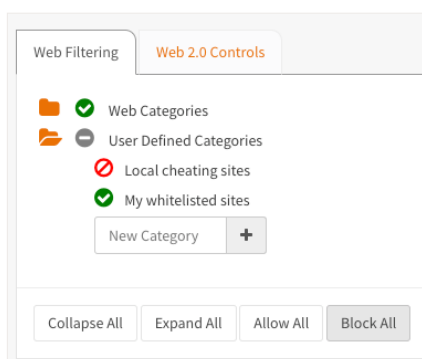

Drill-down Network Visibility

Visualize your network in real-time.

Start from the big-picture; drill-down to per-connection details.

Spot anomalies visually.

Web Security & Filtering

Apply web filtering policies for more than 140 Million web sites under 60+ different Web Categories.

Create custom categories to blacklist or whitelist sites.

New Botnets are detected and blocked within minutes.

SENSEI EDITIONS

	FEATURES	FREE	SOHO	PREMIUM
Visibility	Near-realtime reporting & logging	Yes	Yes	Yes
